

TRAVELLING EXHIBITION

Remembrance, commitment, fraternity

The bilingual French-English exhibition "Remembrance, commitment, fraternity" shows the efforts led in the past as well as today, to preserve the remembrance of the children of Izieu.

The exhibition elements are printed on both sides, to show the importance of commitment for remembrance, while addressing an international audience.

"Remembrance, commitment, fraternity" shows the different steps and people who made the Maison d'Izieu a place of education, memory and life. The exhibition highlights the educational, cultural and commemorative work the memorial accomplishes today.

Finally, it shows how the Maison d'Izieu has always been a place of hospitality, for saving Jewish children during the Second World War, then for commemorating, educating and spreading awareness on the necessary fight against antisemitism, for all audiences.
